The Natural Park of Migliarino, San Rossore, Massaciuccoli is a protected area that covers 23.000 hectares,to which is added the Protected Marine Area Secche della Meloria. It stretches from the sea to the inland, between the provinces of Pisa, Lucca and Livorno. It is characterized by the meeting between land and sea, that creates a large variety of habitats and ecosystems.

The heart of the Park is the San Rossore Estate, a regional property, managed by Ente Parco. The other estates are sometimes private and sometimes public, that is the reason why accessibiliy can be restricted.

ESTATES

The Bourbon Estate and the Lucca Marshland

Standing on the northern coastal area of the Park, it covers the area between the sea and Lake Massaciuccoli, between the town of Viareggio and the village of Torre del Lago. Within its boundaries is the the monumental villa, commissioned by the Duchess Maria Luisa di Borbone. It includes the Natural Reserves of Lecciona and Guidicciona.

Estate of the Northern Lake and Marshland of Massaciuccoli

The lake and the marshy areas surrounding it make up the largest humid area of dune hinterland origin in Tuscany. It includes the villages of Massaciuccoli, that preserves the remains of ancient Roman villas, and Torre del Lago Puccini, linked to the memory of the famous composer.

Estate of the Southern Marshland of Massaciuccoli

This estate is situated in the southern marshland of Lake Massaciuccoli, between the towns of Pisa and Viareggio, the sea and the Apuan Alps. Within its boundaries, there are agricultural family farms, animal husbandry companies and nurseries which all produce typical specialities of the area.

The Migliarino Estate

Along the coast, south of the Lucca Marshland, is an area rich in holm oaks, oaks and maritime pines; it is characterized by the presence of incisions in the ground that nowadays enable the superficial waters to flow out freely and which represent the environmental characteristic of the whole Park. It includes the coastal area of Vecchiano, 4 km of free and unspoiled beaches.

The San Rossore Estate

Bounded to the north by the River Serchio, to the east by the town of Pisa, to the south by the River Arno and to the west by the sea. Located a few km from the town, it is the green heart of Pisa, popolated by deers, wild boars and many species of birds. The main entrance is alle Trombe bridge, from viale delle Cascine, but there are also side entrances.

The Tombolo Estate

This estate covers the southern coastal area, between the River Arno and the area of Calambrone. It includes the beaches of Pisa and the village of San Piero a Grado, with its basilica, a fine example of Romanesque architecture.

Info and guided tours:
WWF Alta Toscana - pisa@wwf.it

Protected Marine Area Secche della Meloria

With its 9.000 hectares, it is a Mediterranean marine ecosystem, where it is possible to admire many species of fishes and a lush marine vegetation.

The Northern Lake and Marsh Estate of Massaciuccoli

The LIPU Oasis visitors centre is located in the small harbour of Massaciuccoli, in the municipality of Massarosa.

A series of walkways built on wooden stilts, that cross the marsh and let you 'immerse yourself' in the lake's atmosphere, starts from here. The centre organizes excursions and tours. It includes a nature museum and a guest house.

ACTIVITIES AND SERVICES

- Guided tours on walkways built on wooden stilts
- Birdwatching
- Small boat, canoe, boat and two-masted sailing boat excursions
- A visit to the Ecology Museum of the Marsh
- Events for small children and kids of all ages
- Summer work camps
- Astrological observations
- Boat trips
- Guided tours to the Roman remains at Massaciuccoli

Enjoy the park responsibly

Always pick up your rubbish and, whenever possible, avoid using plastic: the Park supports a plastic-free style of life

Respect the wild animals, stay away from them at a safe distance, do not bother or harass them and please do not feed them

Protect the fauna even on the beach: do not pick up jellyfish, starfish or other organisms

Picking plants and flowers damages our natural heritage, please have respect for the environment that surrounds you

Leave alone tree trunks, seaweed and other materials that the sea has left behind, they are useful for the maintenance of the dunes and they hinder erosion

Protect the Kentish plover: on the beach, ile down near the sea, no more than 30 metres from the water's edge, and please do not trample the dunes

Do not camp or light fires outside the specially designated areas

Stay on the indicated paths and trails and check their duration time

Bring your dogs with you, always on a lead and with hygienic bags for their physical needs

Mushroom picking is allowed at specific times (1st April to 31st December: on Tuesdays, Thursdays and Sundays) and remember you must have your pass card issued by the Park
